Sage Pro:
Haven't Upgraded Lately?
See What You've Been Missing!

Version	New Features Added
7.3B	A **Pre-Authorization** transaction is now available in the Credit Card Processing option.
	Edit the quantity in a **Modular BOM** containing **Variable Components** during Post Completed Manufacturing.
	Filter the IC Journal report to print only manufacturing transactions. Supports **nesting a Modular BOM Type** inside another Modular BOM Type
	Manufacturer's name and part number can be added to the **Item Master Maintenance** window
7.3	**Intercompany Transactions** functionality added to Enterprise Edition
	National Accounts functionality added to Accounts Receivable module in Enterprise Edition
	Credit Card Processing added
	Enhanced Bank Reconciliation features
	Flexible Payment Terms maintenance screens for Customers and Vendors
	Item Forecasting by Group in Inventory Control
	PO receipt updates job in Job Cost module
	Company ID field expanded to 10 alphanumeric characters
	Add pictures, colors and graphics to Desktop for easier company identification.
	Copy user settings including hotkeys, privileges, dataviews and favorites, to synchronize with existing users.
	Add Customization Manager access to Favorites toolbar to allow access from an application.
	Job Cost now supports Multicurrency transactions, billings and reporting.
	Business Status Report redesigned with additional hyperlinks and added fields.
7.2	**Quick Ship Wizard** added to ship multiple sales orders simultaneously
	Defer invoicing, combine partial shipments and combine selected shipments into a single invoice.
	New **Item Forecasting Wizard** added to project and estimate new order points and order quantities.
	Multiple Value-Added Tax method added to assign multiple tax codes to a single line item
	Alphanumeric account codes available in General Ledger
	Enter **Starting On-hand Quantities** when adding Inventory Items from AR, OE or PO modules
	Add picture files to Inventory Items and Employee Records.
	Use **Edit Sequence command button** to edit the printing sequence of Sales Orders, Purchase Orders, and Invoice line items
	New Clipboard Toolbar to copy and paste text from Windows clipboard to Pro Series
