Doral, FL – November 23, 2011 – Axis Global Partners, a consulting firm specializing in the implementation and support of Sage business management software solutions for small and medium sized enterprises, is pleased to announce that they have been named a “Technology Pacesetter” for 2011. This is the fourth year that Axis Global Partners has been included on Accounting Today’s prestigious list of firms from across North America.

For the past 15 years, the Accounting Today Pacesetters list has represented top-flight resellers in the accounting and ERP software marketplace. Members of the list are firms that carry accounting software as a central part of their product line and that have demonstrated excellence in their field. Accounting Today’s editors’ choices are based on factors such as industry awards received; growth; innovation; customer service; participation in building the profession; and a firm’s general reputation in the marketplace.

“We are thrilled to be named a Technology Pacesetter for the fourth year in a row,” said Manny Buigas, Principal of Axis Global Partners. “We want to share this achievement with our loyal clients who continue to work closely with us to improve their business. We are so thankful to be honored by Accounting Today and hope to continue this for many years to come.”

“Receiving this award is a great honor.” states Tony Chiodo, Principal of Axis Global Partners. “The Axis team is dedicated to providing our clients with the knowledge they need to leverage their technology and this award is a testament to that commitment.”

About Axis Global Partners

Axis Global Partners is a team of certified business consultants serving small to mid-sized businesses throughout the United States, Canada, Latin America and the Caribbean. We improve our clients’ top and bottom lines with automation solutions that increase profits, decrease costs and pay for themselves in the shortest period of time possible.

Our company is led by industry experts specializing in business processes and solutions. We brainstorm all possible improvements to fit your business needs and close the gap between potential and actual performance. We inspire trust by taking responsibility, acting ethically and encouraging honest and open discussion while focusing on your most pressing challenges to deliver innovative and effective solutions.
